- **Conservative scholar who said about LIBERAL scholars:**

"To summarize, liberal scholars of both 19th and 20th centuries admit that the text of Genesis is clearly meant to be taken in a literal, historical sense, although they deny its claims to speak accurately to our space/time cosmos."

B. LIBERAL Scripture Scholars - who do NOT believe the Bible to be God's inerrant Word, admit it clearly teaches a literal six day creation, only thousands of years ago, with a Garden of Eden with no violence or death of nephesh creatures.

Dr. James Barr - Professor of the interpretation of the Holy Scripture, Oxford University

Did NOT believe Genesis, but admitted:

"... probably, so far as I know, there is no professor of Hebrew or Old Testament at any world-class university who does not believe that the writer (s) of Genesis 1–11 intended to convey to their readers the ideas that:

- creation took place in a series of six days which were the same as the days of 24 hours we now experience
- the figures contained in the Genesis genealogies provided by simple addition a chronology from the beginning of the world up to later stages in the biblical story
- Noah's flood was understood to be world-wide and extinguish all human and animal life except for those in the ark." <http://www.answersingenesis.org/home/area/tools/Quotes/barr.asp>
